ABOUT ME

Front-End Developer | React & Next.js Specialist

I am a detail-oriented front-end developer with 1+ years of experience building dynamic and responsive web applications using React and Next.js. I've successfully delivered over 6+ projects, with a focus on performance optimization, responsive design, and user-friendly interfaces. My technical expertise includes JavaScript (ES6+), React.js, Redux, Next.js, and integrating modern libraries like Tailwind CSS. Committed to writing clean and maintainable code, I stay updated with the latest industry trends to create scalable solutions. I'm eager to contribute to a collaborative team environment and drive innovative web development projects.

EXPERIENCE

Freelance Damascus, Syria

Front-End Developer

oct 2023 – Present

- Built 6+ responsive web applications using React.js and Next.js, enhancing user experience and improving
 performance by 35% through code optimization and modern UI design.
- Integrated RESTful APIs and third-party services in 5+ projects, increasing functionality and ensuring seamless data flow across different platforms.
- **Applied SOLID principles** in 6+ projects, resulting in a 20% reduction in code duplication and improved maintainability, scalability, and testability of the applications.
- **Enhanced web application performance** in 5+ projects using Next.js, improving load times by 35% and delivering seamless server-side rendering for better user experience.

PROJECTS

Shoes Ecommerce App

- Developed a full-stack e-commerce application utilizing Next.js 14, Tailwind CSS, ShadCN, Neon DB, and Prisma, resulting in a 30% increase in user engagement through a responsive and modern user interface.
- Developed an admin dashboard that provides real-time insights, allowing administrators to view orders, add, edit, and remove products, and manage promotional banners, enhancing operational efficiency by 45%.
- Implemented payment processing with Stripe, facilitating over 1,000 secure transactions and enhancing the checkout experience, reducing cart abandonment rates by 25%.
- Utilized KindAuth for user authentication, ensuring secure sign-ins for over 500 users and streamlining user account management.
- Integrated UploadThing for efficient image uploads, enabling users to add product images with a 50% increase in upload speed.
- GitHub: https://github.com/Omarjbair/OmarShoe

Blog App

- Built a full-stack blog app with Next.js, Tailwind CSS, Firebase, and NextAuth, covering 6 topics: fashion, food, travel, culture, coding, and styles.
- Implemented a user-friendly interface with pagination for 100+ posts, category filtering for easy navigation, and support for dark mode and light mode.
- Developed a real-time news feed that allows users to add 50+ posts with titles, photos, and editable paragraphs, facilitate over 100 daily interactions, and enable users to comment on posts, boosting overall engagement.
- Integrated authentication for 200+ users using Google and GitHub.
- GitHub: https://github.com/Omarjbair/BlogApp

LinkedIn Clone

- Engineered a full-stack LinkedIn clone using React and Firebase, replicating 5+ key features, including user authentication and a dynamic news feed.
- Implemented Firebase Authentication to manage secure login for 200+ users, ensuring robust data privacy and account protection.
- Created a real-time news feed allowing users to post and interact with 100+ posts daily, enhancing user engagement.
- Utilized Firebase Firestore for real-time database management, achieving 99.9% uptime and seamless data updates across multiple devices.
- GitHub: https://github.com/Omarjbair/Linkedin-Clone

EDUCATION

Damascus University

Damascus, Syria

Computer Engineering

Expected Graduation, Oct 2026

- o Concentrations: Programming and Robotics
- o **GPA**: 81.5/100
- Related Coursework: Data Structures & Algorithms, Computer Organization & Programming, Combinatorics,
 Object-Oriented Programming, Statistics & Applications

SKILLS

Programming: HTML, CSS, JavaScript, Tailwind Css, Next.js, React.js, ReduxToolkit, React Router, React Query, React Formik & yup, Framer Motion, Git Version Control.

Problem Solving: Gained advanced problem-solving skills and hands-on experience in high-pressure environments by competing 2 times in the **Damascus Collegiate Programming Contest (DCPC)**, ranking among 30+ teams.

Volunteering

RBCs Team

Apr 2022 - Oct 2023

- Designed and delivered 10+ lectures on technical and industry topics to 400+ students and professionals, creating
 educational materials and strengthening public speaking skills.
- Formulated course content that improved attendee engagement and understanding of complex topics by 20%.
